

Instant Verification Service by Latvijas Banka

IVS by Latvijas Banka

- Successful go live of the service on 5th of October
 - ~730 thousand requests on peak day
 - ~300 requests on peak seconds
 - 24 account holding BICs and interest from few more
 - 20% of traffic internal within RVM
-
- Main observed issues – different interpretation of rules by RVMs and PSPs, a lot of issues due to lack of mandatory and coordinated testing between RVMs
-
- MTCH+CMTC = 75%
 - NMTC+NOAP = 20%
 - 400+401+500 = 5%
